Welcome

Welcome to Party Parners! The City of Norco, Community Services Department is dedicated to improving the quality of life for people in our community.

About Us

Party Parners is a dedicated program that fosters human development through a variety of social interactions which promote learning and reinforce social skills. Through culturally diverse activities, we help to eliminate social barriers, create independence, dignity, self-worth, and respect.

The program gives families and individuals with degrees of disabilities the opportunity to enjoy personal development and wellness as well as serve as a role model for other communities to emulate. Among the battles these families and individuals face are congenital heart defects, cerebral palsy, autistic disorders, seizures, deafness, blindness, and mental challenges.

Recreation activities develop and reinforce motor skills, and most importantly, build self-esteem. The City of Norco Community Services Department is proud to offer this program. These Clients rely on the friendships they have made and their incredible bond, which is an inspiration to the human spirit. Mainstreaming these clients with diverse programming such as prom, dances, special holiday events, arts and crafts, movies, and musical entertainment have been accepted with enthusiasm.

Our Mission

Our mission of Party Parners is to promote active participation in leisure pursuits for developmentally challenged adults 18 years and older by providing them with the opportunities to socialize with peers, interact with one another, enlarge their circle of friends and create long-lasting memories in a safe and wholesome environment. Helping reach their dreams by overcoming unusual obstacles and challenges in combination with helping individuals and communities develop positive attitudes are central to our mission.

With the support of volunteers, service clubs, local businesses, caring staff, and The Nancy Newman Fund, The City of Norco Community Services Department has been able to meet the challenges of providing a quality service to the physically and developmentally challenged adults in our Community.
