---

The City of Norco is reaching out to inform you that **your Landscape Maintenance District (LMD) is in a deficit** and/or in a position where reserves are lacking. Property owners in LMD 2 & LMD 3 are invited to informational meetings to learn more about funding maintenance in your neighborhood.

# LEARN ABOUT THE UPCOMING BALLOT MEASURE AFFECTING YOUR NEIGHBORHOOD

Because the assessment rates in your neighborhood have been outpaced by costs and your Landscape Maintenance District has a low fund balance, maintenance improvement projects can no longer take place in your neighborhood.

In September 2023, property owners will be mailed a ballot to consider adjusting the assessment rates to realign revenues with basic expenses to fund future maintenance and improvement projects in your neighborhood.
