

CITY OF NORCO

ACCESSORY BUILDING USE APPLICATION

Residential and Agricultural

Large Vehicle Parking Accessory Buildings

REQUIRED SUBMITTALS:

- 1. Completed Uniform Application.
- 2. Two copies of full-size project plans. See attached “Project Plan Preparation Guidelines.” (Note that additional copies of the project plans will be required as the application moves through the review process).
- 3. One copy of an 8½” x 11” reduction of the project plans (digital format or hard copy).
- 4. One copy of the Grant Deed or Title Report indicating legal vesting, lot description, and easements.
- 5. Photos of the subject property and photos toward adjacent properties from the proposed building site (digital format or hard copy).
- 6. Filing fees: See fee list.

CITY OF NORCO

ACCESSORY BUILDING USE APPLICATION FOR RESIDENTIAL AND AGRICULTURAL LARGE VEHICLE PARKING ACCESSORY BUILDINGS PROJECT INFORMATION WORKSHEET

NON-DISCRETIONARY REQUIREMENTS FOR LARGE VEHICLE PARKING ACCESSORY BUILDINGS

NMC SECTION 18.68.20

The following are non-discretionary requirements for vehicles that are designed for the purpose of parking large recreational and agricultural vehicles:

- (a) Maximum height: 16' at roof eave. The maximum allowed height at the peak shall be the lesser of 18'.
- (b) Maximum allowed size: 1,000 square feet.

Additional allowed square footage for other accessory building use:
Size: 400 square feet at the following maximum allowed heights.
Height: Maximum height at eave: 8'; maximum building height: 14'
- (c) Maximum allowed lot coverage: Cannot exceed the maximum allowed lot coverage for all buildings that require a building permit, including all accessory buildings, based on the underlying zone of the property in question.
- (d) All portions of a proposed accessory building shall meet the graduated setback requirement based on the height of any portion of the building per Exhibit 18.68.20-1 (Allowed Building Height). Accessory buildings on lots that have a recorded primary animal-keeping area (PAKA) are not subject to this setback requirement.
- (e) The maximum allowed size for a washroom/restroom is 50 square feet consisting only of a one basin sink and toilet.
- (f) Any side of a building that exceeds 20 feet in length shall be required to include doors and/or windows for articulation.
- (g) No interior wall separations are allowed.
- (h) Exterior wall finishes shall include materials, style, and colors of the primary dwelling (e.g. brick, siding, stucco, etc.); or can consist of materials, features, and colors typical of a barn vernacular, for approval by the Architectural Review Sub-committee (ARC) prior to proceeding to the Planning Commission for its review.
- (i) A five-foot buffer shall be maintained around the required open animal area where the open animal area is adjacent to a property line or an existing or proposed structure.
- (j) For any RV dump, building drainage and/or restroom proposed with an accessory building on a property that is on a septic system, the applicant shall provide a septic system analysis by a septic system engineer that the existing system can accommodate the proposed additional capacity. If the existing system cannot support the additional capacity then the proposed building cannot include an RV dump, building drainage, or a restroom without prior connection (including fees) to the City sewer system.

Note: Sprinklers may be required by the Fire Department for new structures.

DISCRETIONARY PROJECT REVIEW (ADDITIONAL INFORMATION)

Please note that the approval of an accessory building is at the discretion of the Planning Commission and is not the automatic right of the applicant. A proposed accessory building to park large recreational or agricultural vehicles needs to minimally meet the non-discretionary requirements listed above before it can be considered for approval by the Planning Commission. To assist the Planning Commission in its discretionary review the applicant needs to provide the attached additional information. Please refer to the requirements above when answering the attached questions as needed (answer all non-shaded questions).

INSPECTIONS (ADDITIONAL INFORMATION)

Please note that in addition to required building permit and grading permit inspections all buildings approved with an Accessory Building Use Permit shall be subject to immediate inspection by City Officials upon a 24-hour notice to the resident to ensure that no unauthorized use is occurring pursuant to the approved permit.

RECORDATION (ADDITIONAL INFORMATION)

Please note that the approved site plan, together with the conditions, if any required by the approving body, shall be recorded with the Riverside County Recorder's Office prior to the issuance of a building permit.

1. Property size: What is the square-footage of the property in question? _____
(Correct and scaled dimensions of the property need to be shown on the site plan)
2. Lot coverage: What is the proposed building coverage as a percentage of the flat pad portion of the lot in question for all existing and proposed buildings (including pools and a five-foot coping area around the pools)? _____
(All existing and proposed buildings, including pools and coping areas, need to be correctly located and scaled correctly on the site plan)
(The flat pad of the lot is a total of all portions of the lot that are at 4% grade or less)

OFFICE USE: Does the proposed building meet lot coverage allowances?

YES NO

3. Building use: What are the proposed uses of the building? _____

4. Building size: What is the square footage of the proposed building? _____

OFFICE USE: Does the proposed building meet the size limitation for the proposed use?

YES NO

5. Building height: What is the proposed building height at roof eave? _____
What is the proposed building height at the highest point? _____

OFFICE USE: Does the proposed building height meet the height limitation for the proposed use?

YES NO

6. Building setbacks: What are the proposed building setbacks of the proposed structure to property lines and nearest buildings? _____

(All proposed building setbacks to property lines and nearest existing buildings, including pools and coping areas, need to be correctly labeled and scaled on the site plan)

OFFICE USE: Does the proposed building meet setback and building separation requirements?	YES <input type="checkbox"/>	NO <input type="checkbox"/>
-------------------------------------------------------------------------------------------	---------------------------------	--------------------------------

7. Building floor plan:

Is a restroom or washroom proposed? YES NO

Are any interior wall separations proposed? YES NO

OFFICE USE: Is the proposed building designed in accordance with the type of building requested?	YES <input type="checkbox"/>	NO <input type="checkbox"/>
--------------------------------------------------------------------------------------------------	---------------------------------	--------------------------------

8. Grading: How many cubic yards of soil will need to be moved in the preparation of a pad site for the construction of the proposed building? _____

Is the area of the subject site where the building is proposed flat (4% grade or less)? YES NO

If not, will the building pad require cutting into an existing slope, or? YES NO

Will fill material be needed to create the building pad? YES NO

What is the differential between the finished building pad and the site elevation measured two feet from the building on all sides? _____

Will the location of the building or the required grading affect existing drainage and run-off patterns with the potential to create drainage impacts to neighboring properties? YES NO

If yes, what on-site retaining features are being proposed so as not to increase amount, or rate of flow, of run-off to adjoining properties from existing conditions (prior to the proposed building)? _____

If no, explain why there would be no impact. _____

(All proposed grading including any proposed cut and fill material needs to be shown on the site plan including the areas where cut or fill will occur. The site plan needs to show existing drainage patterns prior to the building and if those patterns will change after the building is constructed. If those patterns will change, the proposed drainage pattern post construction also needs to be shown on the site plan including any on-site retaining facilities that the City determines is needed. The applicant may be required to provide a cubic-feet-per-second (CFS) change analysis to determine if on-site retaining will be needed).

OFFICE USE: Does the proposed building and related grading avoid creating potential run-off and drainage impacts to adjoining properties?

YES NO

9. Drainage and run-off: What is the existing drainage pattern on-site prior to construction of the proposed accessory building (show on site plan)?

During a storm event or irrigation run-off does your property currently take run-off from neighboring properties?

YES NO

If so, indicate where and from what properties on the site plan.

If not, indicate on the site plan where run-off from neighboring properties drains to.

Is your property located in a 100-year or 500-year flood zone as shown on the Flood Insurance Rate Maps (FIRM) by the Federal Emergency Management Agency (FEMA)? (Maps located at City Hall)

YES NO

If so, indicate which zone, and location of the zone on the site plan, and indicate what mitigation measures will be needed to address the impact of being in that zone. _____

How will the existing drainage flow and run-off patterns be changed after construction of the accessory building (show on site plan)?

Will the increased run-off from the proposed building discharge onto adjacent properties? _____

OFFICE USE: Does the proposed building and site design protect adjacent properties from a significant increase in run-off and/or significant changes to existing drainage?

YES NO

10. Animal-keeping area: Does the location of the structure preserve adequate open animal area on the property (as defined in the zoning requirements)?

Is there an open animal area equal to 576 square feet X allowed number of animal units?

YES NO

Is there a 5-foot buffer between the open animal area and property lines and buildings? YES NO

Does vehicular access to the accessory building have to cross the open animal area? YES NO

OFFICE USE: Does the proposed building preserve an adequate open animal area including any required buffer areas?

YES NO

11. Architecture: Does the design of the building incorporate the materials, style, and colors of the primary residence; or do the materials, features, and colors establish a barn vernacular? YES NO

If yes, what are the exterior wall finishes of the primary dwelling that have been incorporated into the design of the building; or what are the design features of a barn vernacular that have been incorporated?

If yes, what is/are the colors of the primary dwelling and what will the color of the proposed building be?

OFFICE USE: Is the design of the proposed building compatible in design with the primary dwelling?

YES NO

12. View: Does the location or size of the proposed building negatively impact the view of adjoining properties? YES NO

If yes, what views will be impacted? _____

CITY OF NORCO

PROJECT PLAN PREPARATION GUIDELINES FOR MINOR APPLICATIONS

All plans shall be folded to 8½" x 11". All plans shall be collated and drawn in uniform sized sheets no greater than 30" x 48", utilizing an engineering scale from 1"=10' to 1"=60'. Architectural scales not acceptable except in elevation pages. All plans shall be clear, legible, and accurately drawn. **Plans not conforming with these guidelines and the requirements listed below will not be accepted.**

All items listed below are considered as a minimum. Additional information may be necessary during the review process.

I. Site Plan

Site Plan must include the following items:

- a. Name, address, email, and phone number of the applicant and the author of the plan (architect, engineer, etc.).
- b. Site plan identification including property address, north arrow, date of preparation, property boundary lines, dedications for public use, street center line, and right of way lines.
- c. A site summary table containing:
 - i. Site size in square feet and acres
 - ii. Zoning and land use
 - iii. Flat pad area
 - iv. A dimensioned delineation of the Primary Animal-Keeping Area (PAKA) if one exists, or the contiguous open animal area where a PAKA does not exist.
 - v. Proposed buildings and structures (indicate type of construction, roof materials, total building and ground floor area of each building).
 - vi. Total existing and proposed lot coverage of the project site.
- d. General slope degree and direction*, with direction of site drainage including roughly 50 feet beyond property lines showing where off-site drainage occurs*. Proposed drainage systems and any proposed change to the existing drainage pattern needs to be included.
- e. Clearly show, label, and dimension all existing and proposed structures on the subject property.
- f. Dimensioned setbacks of all existing and proposed structures from the closest property line/s.
- g. Dimensioned distance/s between all structures on the property.
- h. Clearly show, label, and dimension the length of all existing and proposed fences/walls on the property. The site plan must indicate the material, color, and height of all existing and/or proposed fences on the property.
- i. Show all building entrances/exits.
- j. Dimensioned outdoor storage areas including trash, mechanical, material storage, etc.
- k. Proposed on-site circulation pattern for vehicles, pedestrians, and equestrians (indicate location, dimensions, and directional arrows as needed).
- l. Differentiation between hardscape and landscape areas on-site.

II. Elevations

Elevations must include the following items:

- a. View from all sides of all proposed structures.
- b. Dimensions for all building elevations, taken from the finished floor to the top of the roof ridge and from the finished floor to the roof eave.
- c. Callouts for materials used, including color and finish on all sides of a proposed structure.
- d. Show any light fixtures to be affixed on a proposed structure.

III. Floor Plans

Floor Plan must include the following items:

- a. All floors, including labels for each room (horse stall, open area, bedroom, kitchen, etc.)
- b. Dimensions for all exterior walls, doors, windows, and room sizes.

IV. Roof Plans

Roof Plan must include the following items:

- a. Indicate whether roof is flat or sloped. For sloped roofs indicate slope and slope direction.
- b. Roof materials.

* The City will assist in providing whatever background site and topographical data that may be available from City files. There is no guarantee that this information exists in City files, in which case the applicant would have to provide the information.
